Home Health

Morrow County Hospital Home Health services are available to patients who:

- + Require skilled nursing care, physical, occupational or speech therapy.
- + Were recently discharged from a hospital or other healthcare facility and require continuing care, monitoring or teaching.
- + Have difficulty getting to the doctor's office and require skilled care.
- + Need help to regain independence in walking, bathing or talking.

Skilled Nursing Services

- + Plan your nursing care with your physician's guidance.
- + Provide post-operative care and monitoring for surgeries such as: joint replacements, abdominal surgery, open heart surgery and many more.
- + Provide care and treatment for wounds.
- + Provide patient and family teaching for: medications, present or on-going illness, wound care, glucose monitoring and insulin administration, ostomy care and more.
- + Our nurses can: administer IV medications such as antibiotics, obtain lab specimens, change foley catheters, provide ostomy care, etc.

Physical Therapy

- + Provide an individually designed plan of care to return functional abilities to optimal level.
- + Plan and teach home exercises to recover movement or regain muscle strength and function.
- + Select and teach activities to restore physical function.
- + Carry out physician orders for treatment and report progress or changes needed in the plan of care.

Occupational Therapy*

- + To recommend and help obtain adaptive home equipment or other supportive devices.
- + Teach adaptive methods of eating, dressing, and other daily activities to improve independence.

— **Top 25% Nationwide** —

Speech Therapy*

- + Establish a program to help speech-language communication skills.
- + Assist those with voice disorders to develop proper vocal and respiratory control.
- + Assist those with swallowing difficulties.

Dietitian*

- + Provides nutritional evaluation and teaching.
- + Provides teaching for special diets such as: diabetic, healthy heart, renal, high protein and low sodium.

Social Worker

- + Assess social and emotional factors related to an illness and its treatment.
- + Assess need for other services such as: financial and community resources, and preparation of Advanced Directives.

Aide Services

Our aides support the services of the care professionals as they:

- + Help with personal care such as: bathing, skin and hair care, and bed linen changes.
- + Assist with exercises which have been prescribed.
- + Support the tasks of daily living.
- + Encourage self-help whenever possible.

Fees

Both Medicare and Medicaid cover the cost of Home Health services. Additionally, many private insurance plans have a Home Health benefit.
